

## Solder Bath SB-PTC-350 D

In Electronics, Electrical and Automobile industry you come across where you have to carry out tinning operation. It may be component such as resistor, capacitor or stripped wire where lead-out ends are to be tinned or it may be

stripped wire ends to be soldered or it may be wire ends of wiring harness, crimped lugs to be tinned. One can think of various applications. We have developed various Solder pots depending on customer requirements.

<b>Pot Shape</b>	Round
<b>Pot Dimensions in mm</b>	100 X 50 deep
<b>Wattage</b>	350 W
<b>Solder Capacity</b>	3.5 Kg
<b>Temp. Range</b>	200° C to 450° C

### Applications:

- Component Lead Tinning.
- Tinning of stripped PVC wires.
- Soldering of Self-solderable wires.
- Wiring harness ends in automobile industry.
- All these pots can be used with lead free solder also.

### Note:

- PTC Models are temperature controlled.
- Temperature controlled within  $\pm 5^{\circ}\text{C}$  of set temperature.
